Comments: (If possible, please reference section number and/or page number in document if applicable.)

- 1 I do not want any of the Nuclear fuel or Radioactive
Waste stored at Yucca Mountain
If it is as safe as they say it is, lets just
leave it where it is at
- 2 As for the Railroad in Crescent Valley, I think
that would be a real blunder
With all the mining that is going on now and
for years to come
There are several well used roads that cross
the valley
The railway would destroy a lot of private
land and also a lot of timber land

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
